

TNP Supplementary Policy & FAQs

Mock content generated to complement the college's real TNP Helpdesk Guidelines document for capstone project demo purposes. Covers registration, documents, CTC, debarment, and offer-tier rules not addressed in the primary guidelines document. Not an official college publication.

1. Registration & Documents

1.1 Registration Process

Students must register on the official placement portal at the start of the academic year. Registration requires an updated resume, semester-wise mark sheets, and a signed placement policy acknowledgement form. Late registration after a company's application deadline will not be entertained.

1.2 Documents to Carry for Drives

A valid college ID card, at least 2 printed copies of your updated resume, a government photo ID (Aadhar/PAN/Passport), and printed copies of semester mark sheets. Some companies may also request a passport-size photograph — check company-specific instructions on the portal.

2. Offer Tiers & Further Applications

Companies are categorized into three tiers based on CTC offered: **Dream** (above 20 LPA), **Core** (8-20 LPA), and **Mass Recruiter** (below 8 LPA). This tiering determines whether a student may apply to further companies after receiving an offer.

Offer Tier Accepted	Can Apply Further?
Mass Recruiter	Yes, to Core and Dream tier companies
Core	Yes, to Dream tier companies only
Dream	No further applications permitted

2.1 Debarment Policy

A student will be debarred from all further campus placement activity for the remainder of the season if they: (a) accept an offer and then withdraw without valid documented reason, (b) are absent from a shortlisted interview without prior intimation to the TNP office, or (c) engage in malpractice during an online assessment or interview, including impersonation or use of unauthorized resources.

3. CTC & Compensation

CTC includes fixed base salary plus variable components such as joining bonus, annual performance bonus, and stock units (RSUs) where applicable. Students should request a fixed-vs-variable breakup during the pre-placement talk if not already disclosed, since take-home pay is usually closer to the fixed component alone.

4. Pre-Placement Talks (PPTs)

PPTs are typically scheduled 3-5 days before a company's OA or interview date and are communicated via the placement portal and official college email. Attendance at the PPT is mandatory for students intending to sit for that company. Drive dates, OA links, and interview slots are shared exclusively through the placement portal — check it daily during placement season rather than relying solely on email.

5. Frequently Asked Questions

Q: Can I sit for a company after rejecting an offer from another?

A: Yes, as long as you have not formally accepted an offer. Once you accept an offer through the portal, the tier-based further-application rules (Section 2) apply.

Q: Is there a limit to how many companies I can register for in a season?

A: There is no cap on registrations before receiving any offer. Limits only apply after you accept an offer, per the tier rules in Section 2.

Q: Who do I contact if I face a technical issue during an online assessment?

A: Immediately email the TNP office and CC the recruiter's point of contact (shared in the PPT) with a screenshot of the issue and a timestamp. Do not close the OA window before reaching out.

Q: Can I skip a company's OA if I'm not interested?

A: Yes, participation in any individual drive is optional unless you have already committed by registering for that specific company on the portal. Repeated last-minute no-shows after registering may affect eligibility for future drives that season.

Q: What happens if I have an active backlog during placement season?

A: Most companies require zero active backlogs at the time of the interview, though some permit 1-2 backlogs to be cleared before the joining date. Check the specific company's eligibility criteria before applying.
